Private Practice

As President of Slay Engineering Co., Inc., Mr. Slay represents both public and private clients, while assuming his duties as the leader of the firm. His continual project involvement enables him to maintain positive working relationships with public entity representatives, working with them to complete important public projects, and keep private projects on track with the current codes and development issues. Mr. Slay has vast experience in all phases of planning for commercial, educational, municipal and community development, has served as an expert witness for Texas Department of Transportation on multiple projects, directs planning and feasibility studies, performs hydrology design and analysis, organizes and directs project scheduling, construction administration, and all civil aspects of the designs. His experience spans across most of South Texas, as well as Louisiana and Arizona.
